

# **FAMILY MEMBERS**

***“WE’VE BEEN THERE,  
WE CAN HELP”***

The Riverside County Dept. of Mental Health (RC-DMH) recognizes that adults with severe and persistent mental illnesses either live with or are involved with family members or other caregivers.

The Department provides a variety of services to family members and caregivers through its Family Advocate Program; staff members are themselves family members.

**El Programa que Aboga por la Familia puede proveer asistencia en Español a miembros de su familia.**
