**THE GOALS OF THE MENTAL
HEALTH COURT ARE TO:**

- Connect criminal defendants who suffer from serious mental illness to treatment services in the community.
- Find appropriate dispositions to criminal charges taking into consideration the act of each case and prior criminal history
- Ensure public safety and reduce recidivism and violence on re-arrest through appropriate mental health treatment and intensive supervision.
- Increase collaboration between court, county counsel, city agencies, and community mental health treatment services.

The Family Advocate Program

The primary function of the Family Advocate Program is to assist family members in coping with the illness of the adult family member through the provision of information, education, and support. The Family Advocate Program facilitates relationships between family members, service providers, and the mental health system.

The Family Advocate Program staff are themselves family members, so families may feel confident that they will be working with individuals who are sensitive to their concerns.
